

Euphorbia 'Glacier Blue'

GENERAL DESCRIPTION

Discovered at *Skagit Gardens*, evergreen 'Glacier Blue' has smoky blue gray foliage edged in cream. The coloring is repeated in the intriguing flower clusters. It makes a striking specimen plant with vigor and habit stronger than other variegated *Euphorbias*. *People's Choice award-winner at the 2007 Farwest Show. PlantHaven.*

USES

'Glacier Blue' makes a great specimen and an outstanding container plant, alone or as the perfect centerpiece for drought-tolerant, mixed containers. As a garden plant, the color stands out all season long and complements other foliage and flower colors.

GARDENER TIPS

- Plant in full sun, in average, well-drained soil.
- Although *Euphorbias* are drought tolerant when established, provide water during prolonged dry periods.
- Fertilize sparingly.
- Remove spent blooms.
- Avoid contact with the milky sap which can be a skin irritant.

PLANT DATA

- Height: 12-18"/18"
- Spread: 18"
- Bloom time: Feb-May
- USDA Zone: 7(0°)
