

Cinnamon Snow

Pink Frost

Helleborus Gold Collection® Cinnamon Snow & Pink Frost

GENERAL DESCRIPTION

This outstanding series brings magical new life to winter and early spring-blooming Hellebores. Flowering the first year, they are long blooming, with lots of buds and blossom. Large flowers are forward facing and can be enjoyed indoors as winter and holiday decorations, and later planted outside as a long-lived perennial. These are no-fuss, reliable additions to modern gardens. *Hybridized by Heuger.*

- **Cinnamon Snow**—Pink buds open to large, creamy white flowers blended with rose and warm cinnamon. Petal reverse has a reddish hue. Handsome dark foliage.
- **Pink Frost**—Elegant, burgundy and white buds open to pink flowers that age to a burgundy red. Rich green foliage has red stems and veins and a silvery sheen marbled across the top.

USES

Deer resistant, these selections make a good ground cover and are choice perennials for shady borders. Outstanding in patio tubs or planters, they should be placed where their early flowers can be appreciated.

GARDENER TIPS

- Plant in moist but well-drained soil.
- Plant in part to full shade.
- Shelter from strong winter winds.
- Remove older foliage in spring.
- Mulch to maintain summer moisture.

PLANT DATA

Cinnamon Snow

Height: 15–18"/18"
Spread: 24"
Bloom time: Dec–Feb
USDA Zone: 5(-20°)

Pink Frost

Height: 12–15"/15"
Spread: 24"
Bloom time: Jan–Mar
USDA Zone: 5(-20°)
