

Oenothera 'Shimmer'

GENERAL DESCRIPTION

Lemon yellow, crepe paper blossoms shimmer cheerfully in the sun. The foliage is lacy, with very narrow, silvery green leaves. A smaller *Oenothera*, this one glows with light and warmth all summer, but is surprisingly tough and drought tolerant.

USES

'Shimmer' thrives in rockeries, at the front of a dry border or in a xeriscape.

GARDENER TIPS

- Plant in full sun in well-drained soil.
- Keep soil lightly moist, but do not overwater.
- Plant in lean soil and fertilize sparingly.

PLANT DATA

- Height: 10–12"/12"
- Spread: 15"
- Bloom time: May–Aug
- USDA Zone: 4(-30°)

PATENT INFORMATION

Asexual propagation prohibited
O. fremontii 'Shimmer': USPP #19663
