

Cream

Deep Rose

Red

Tangerine

Phygelius CandyDrops™ Series

GENERAL DESCRIPTION

Abundant clusters of pendent flowers in vivid colors hang from upright stems. Compact, lush green foliage accents blossoms that bloom early and repeatedly throughout the summer. *Hybridized by David Kerley.*

- **Cream**—smooth cream
- **Deep Rose**—rich rose pink
- **Red**—scarlet
- **Tangerine**—light orange

PLANT DATA

- Height: 12–18"
- Spread: 24"
- Bloom time: Apr–Sep
- USDA Zone: 8(10°)

USES

Early flowering and very compact, these *Phygelius* put vivid color on the patio, attracting both people and hummingbirds. Ideal in containers all by themselves, they also do well in mixed company in combination planters. They can be planted in the traditional homes for *Phygelius*: in beds and the front of the border.

GARDENER TIPS

- Site in full sun to partial shade.
- Plant in moist, but well-drained soil.
- Cut back spent flower stems for repeat bloom.
- Provide winter mulch.
