

## Heuchera Villosa Type

### GENERAL DESCRIPTION

Robust and heat loving, this collection, bred with *H. villosa* in the lineage, includes some fantastic Coral Bells in a wide range of foliage colors. Beautiful, but extremely tough, they tolerate heat and humidity. All have clusters of tiny bellflowers that rise above the foliage.

- **'Beaujolaïs'**—huge burgundy leaves with a touch of silver, and creamy white flowers
- **'Brownies'**—large chocolate leaves with plum red reverse, and creamy white flowers
- **'Caramel'**—honey apricot leaves with pink flowers
- **'Citronelle'**—lime green leaves with creamy white flowers
- **'Encore'**—rose purple leaves with dark veins, and creamy white flowers
- **'Miracle'**—lime and burgundy red leaves with pink flowers
- **'Mocha'**—purplish brown leaves with creamy white flowers
- **'Palace Purple Select'**—mahogany red leaves with ivory flowers
- **'Pinot Gris'**—ginger leaves with a silvery overlay, and creamy white flowers
- **'Pinot Noir'**—large, very deep black purple leaves with a silver sheen, and white flowers
- **'Pistache'**—large, lime green to chartreuse leaves and creamy white flowers
- **'Tiramisu'**—golden yellow leaves splashed with red, and creamy pink flowers

### USES

These *Heuchera* all make great additions to a shady border and are excellent as specimen plants or in mixed containers. For dry shade, they are unsurpassed.

### GARDENER TIPS

- Grow in full sun in mild climates or light shade if sun is intense.
- Plant in well-drained soil and do not overwater.
- Remove spent blooms to keep plants tidy.
- Be aware that 'Citronelle' is more sensitive than the others to foliage burn from environmental conditions such as wind, frost and over-drying, and may require more protection. 'Pistache' is reputed to be a little less sensitive, but it still needs some shade.

### PLANT DATA

#### 'Beaujolaïs'

- Height: 10"/14"
- Spread: 14"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Brownies'

- Height: 8"/26"
- Spread: 18"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Caramel'

- Height: 8"/26"
- Spread: 18"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Citronelle'

- Height: 6"/14"
- Spread: 15"
- Bloom time: Aug–Sep
- USDA Zone: 4(-30°)

#### 'Encore'

- Height: 12"/18"
- Spread: 14"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Miracle'

- Height: 8–14"/14"
- Spread: 10"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Mocha'

- Height: 8"/26"
- Spread: 18"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Palace Purple Select'

- Height: 6–12"/18"
- Spread: 24"
- Bloom time: May–Jul
- USDA Zone: 3(-40°)

#### 'Pinot Gris'

- Height: 10"/18"
- Spread: 14"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Pinot Noir'

- Height: 10"/18"
- Spread: 14"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Pistache'

- Height: 10"/18"
- Spread: 14"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)

#### 'Tiramisu'

- Height: 8–10"/18"
- Spread: 10"
- Bloom time: Jun–Jul
- USDA Zone: 4(-30°)
