Perennial

USDA Hardiness Zone: 3(-40°)

Geum Borisii

Genus	Geum
Variety	`Borisii'
Exposure	Full Sun to Part Shade
Height	9-12"
Spread	18"

Description Intense orange scarlet flowers bloom with a pincushion center. Dwarf, with enduring, fresh green foliage. Fine border plant.

Care Fertile soil, in sun or part shade. Good drainage is important, especially in winter, but don't allow to dry out.

Bloom Time Spring- Early Summer

Pollinator Friendly

Deer Resistant
