

## Pepper Jalapride-jalapeno

|                    |   |
|--------------------|---|
| <b>Genus</b>       | Pepper  |
| <b>Variety</b>     | Jalapride   |
| <b>Exposure</b>    | Full Sun  |
| <b>Spread</b>      | 18"   |
| <b>Description</b> | Produces thick-walled, hot fruit with deep green color that ripens to a bright red. Matures in 65-75 days.                |
| <b>Care</b>        | Space 14 x 18" apart when weather and soil have thoroughly warmed. Mulch to retain moisture and reduce weeds. Water well. |

Annual
