Alchemilla mollis

Genus	Alchemilla
Variety	mollis
Exposure	Full Sun to Part Shade
Height	12-18"
Spread	18"

Description Fan-shaped, soft green, hairy leaves. Billowy, lime green flower sprays are nice for cutting and drying. Good ground cover. Does well in shady areas.

Care Moist, well-drained soil. Shear back after bloom to rejuvenate and tidy the foliage. May divide in spring or fall. Often self-seeds.

Bloom Time Late Spring

Perennial

USDA Hardiness Zone: 3(-40°)
