Deschampsia cespitosa

Genus Deschampsia

Variety cespitosa

Exposure Full Sun to Part Shade

Height 24-36"

Spread 20"

Description Large airy panicles of silvery purple spikelets rise on stems above rough, hairless, dark green leaves. Provides textural interest.

Care Prefers wet and boggy soils. Do not allow to dry out. Remove previous year's growth before new growth begins.

Bloom Time Summer

Perennial

USDA Hardiness Zone: 4(-30°)
