## Cyperus Gracilis Umbrella

**Genus** Cyperus

**Variety** `Gracilis'

**Exposure** Full Sun to Part Shade

**Height** 12-24"

**Spread** 24'

**Description** Semi-aquatic reed topped with narrow leaf-like bracts radiating from the center. Smaller than common umbrella plant. Grow in pots in shallow water or in mixed containers.

**Care** Needs ample water or full immersion. May be overwintered indoors in cold climates. Fertilize in spring.

Deer Resistant
