Annual

Shiso Green

Genus Shiso

Variety Green

Exposure Full Sun to Part Shade

Spread 12"

Description Erect, bushy, with ornamental flowers and foliage that are edible. Minty basil flavor. Commonly used in Asian dishes-all parts with multiple uses. 60-70 days to maturity.

Care Grow in fertile, well-drained soil in a warm location. Allow to form seedpods for reseeding, or cut them to encourage more leaves.

Bloom Time Late Summer
