

## Penstemon Red Rocks

|                 |            |
|-----------------|------------|
| <b>Genus</b>    | Penstemon  |
| <b>Variety</b>  | Red Rocks® |
| <b>Exposure</b> | Full Sun   |
| <b>Height</b>   | 12-18"     |
| <b>Spread</b>   | 12"        |

**Description** Tall, showy spikes of bright rose-red, tubular flowers rise above mounded dark green deciduous foliage. Low-maintenance color in borders, rockeries, and open woodlands.

**Care** Prefers dryish, well-drained soil. Remove spent flower spikes and but back to basal foliage after flowering. Fertilizing not required.

**Bloom Time** Summer

Drought Resistant

Pollinator Friendly

Deer Resistant

Perennial

USDA Hardiness Zone: 4(-30°)
