|-----------------|-----------------|
| <b>Genus</b>    | Canna           |
| <b>Variety</b>  | Cannova® Yellow |
| <b>Exposure</b> | Full Sun        |
| <b>Height</b>   | 30-48"          |
| <b>Spread</b>   | 20"             |

**Description** Showy, tropical-looking, bright yellow flowers above large, glossy, dark green, lance-shaped leaves. Great for waterside plantings, massed, or in containers.

**Care** Grow in evenly moist, well-drained soil. Water regularly and fertilize every two weeks. Remove spent flowers.

**Bloom Time** Summer

Pollinator Friendly

Tender Perennial

USDA Hardiness Zone: 8(10°)
