Perennial

USDA Hardiness Zone: 4(-30°)

Iberis Snow Cone(TM) Improved

Genus Iberis

Variety Snow Cone(TM) Improved

Exposure Full Sun to Part Shade

Height 5-8"

Spread 12"

Description Profuse, flat clusters of white flowers cover narrow, dark evergreen foliage on a low-growing, spreading, woody groundcover. Great for edging paths or in rockeries.

Care Requires well-drained, slightly alkaline soil and moderate water. Apply a low-nitrogen fertilizer every 6 weeks. Prune after flowering.

Bloom Time Early Spring

Drought Resistant

Pollinator Friendly

Deer Resistant
