Annual

Tomato Sweet 100

Genus	Tomato
Variety	`Sweet 100'
Exposure	Full Sun
Spread	30"
Description	Long-branched clusters of round, bright red fruit all summer. Eat fresh from vine or toss in salad. Matures in 65 days.
Care	Requires staking 2-3' apart for best results. Plant after last frost when soil warms. Prune lower leaves 1" above soil.
