Perennial

USDA Hardiness Zone: 5(-20°)

Caryopteris Dark Knight

Genus	Caryopteris
Variety	'Dark Knight'
Exposure	Full Sun
Height	24-36"
Spread	36"

Description Late-blooming, fragrant, deep blue flowers in smoke-like clusters are backed by aromatic dull green leaves with silvery undersides. Great for shrub borders, massed, or as hedging.

Care Easily grown in average, moist, well-drained soil with moderate water. Fertilize and prune hard in spring. Top dies back in cold zones.
