|-----------------|----------------|
| <b>Genus</b>    | Hosta          |
| <b>Variety</b>  | 'Prairie Moon' |
| <b>Exposure</b> | Part Sun       |
| <b>Height</b>   | 14-16"         |
| <b>Spread</b>   | 30"            |

**Description** Thick, lance shaped leaves emerge bright yellow and hold their color all season. Red-flecked leaf petioles and pale lavender flowers. Adds bright color to borders.

**Care** Plant in moist, well-drained soil and water regularly. Apply a slow-release fertilizer in spring. Remove old leaves in early spring.

**Bloom Time** Late Summer

Pollinator Friendly

Perennial

USDA Hardiness Zone: 3(-40°)
