Tender Perennial

USDA Hardiness Zone: 6(-10°)

Mahonia nervosa

Genus	Mahonia
Variety	nervosa
Exposure	Sun to Shade
Height	24-36"
Spread	48"

Description Lustrous emerald leaves and panicles of canary yellow flowers, followed by waxy, blue berries. Forms a loose, evergreen, shrubby groundcover. Great in natural gardens.

Care Will handle dry shade in acidic, well-drained soil. Water deeply until established. Slow-growing, so plant near desired density.
