Sorbaria Sem

| | |
|-----------------|------------------------|
| Genus | Sorbaria |
| Variety | `Sem' |
| Exposure | Full Sun to Part Shade |
| Height | 48-60" |
| Spread | 60" |

Description Fern-like, textured leaves on arching branches emerge pink, red, and yellow, maturing to dark green. Creamy white flowers. Deciduous. Good as an accent, on slopes.

Care Plant in well-drained soil and water moderately. Fertilizing not needed. Remove ground-level suckers to limit spread. Prune in winter.
