Syringa Bloomerang Dark Purple

Genus Syringa

Variety Bloomerang® Dark Purple

Exposure Full Sun

Height 4-6'

Spread 6'

Description Very dark purple spring buds open to classic deep lilac flowers that last for weeks, then bloom again, summer-frost. Great dwarf for fragrant borders, pots, or hedging.

Care Requires well-drained soil and regular water. Fertilize in early spring. Prune only after spring flowering, never in other seasons.
