Perennial

USDA Hardiness Zone: 5(-20°)

Viburnum Cardinal Candy

Genus	Viburnum
Variety	Cardinal Candy®
Exposure	Full Sun to Part Shade
Height	6-8'
Spread	8'

Description Loads of creamy white, fragrant flowers in dome-shaped cymes, followed by bright red fruit in showy clusters. Ideal for open woodland or winter gardens. Self-fertile.

Care Easily grown in well-drained soil with moderate water. Fertilize in spring. Prune after flowering, leaving flowers to form berries.
