## Hedera Baby Leaf

|                 |                        |
|-----------------|------------------------|
| <b>Genus</b>    | Ivy                    |
| <b>Variety</b>  | 'Baby Leaf'            |
| <b>Exposure</b> | Full Sun to Part Shade |
| <b>Height</b>   | Varies                 |
| <b>Spread</b>   | 6"                     |

**Description** A smaller, trailing ivy displaying medium-green leaves with lighter veining. Container, hanging basket or houseplant. Tolerates low light and purifies the air.

**Care** Grow in moderately fertile, moist, well-drained soil with moderate water. Fertilize twice a year with any houseplant fertilizer.

Deer Resistant

Tender Perennial

USDA Hardiness Zone: 8(10°)
