Coleus Main Street Wall Street

| | |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Genus | Coleus |
| Variety | Main Street Wall Street |
| Exposure | Full Sun to Shade |
| Height | 16-36" |
| Spread | 24" |
| Description | Brightly colored, coppery orange, serrated, pointed leaves on strong, dense stems. Containers, houseplant, border edging, underplanting. |
| Care | Moist, well-drained soil with regular water. Apply a slow-release fertilizer in spring. Remove flower buds to prevent decline. |
